Not illustrated. 1922 Excerpt: .the State Board of Charities) that in 1920 over 31 per cent of all babies born in Rochester were born in the hospitals of that city; in Albany over 45 per cent were born in hospitals; in Binghamton 27; in Niagara Falls 32; in Syracuse 43; in Yonkers 27; Amsterdam 23; Elmira 43; Jamestown 53; Watertown 41; Cortland 46; Geneva 43; Glens Falls 37; Hornell 34; Hudson 36; and so on. The question immediately arises as to how many of the mothers came from the surrounding districts which have no local hospital service and what effect this may have on the infant mortality from various causes, at specific ages etc., in defining the exact problem of each city. The charts show that in the most northern tier of counties, in both the cities and the rural districts, every type of infant welfare work is needed; all mothers, actual or potential, should be reached. As many of the mothers whose infants die are Canadian, questions which arise are: What proportion of the nurses located in those counties should understand the FrenchCanadian dialect? And of what nationality are the mothers who constitute the minority of those among whom infant welfare work must be conducted? These few illustrations may indicate some of the directions in which every community should study carefully the statistical data of its own locality. The State s aid is available for the interpretation of the facts where this will be of value in outlining a...
