

The Symmes Theory of Concentric Spheres; Demonstrating That the Earth Is Hollow, Habitable Within, and Widely Open about the Poles (Paperback)

Filesize: 1.33 MB

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1878 edition. Excerpt: . several herds of those animals, of seventy or eighty in a herd, in about latitude sixty-eight degrees. He states that the polar white bears are very rarely found by any of the Indians in winter; and that their winter retreats appear to be unknown;* that they are sometimes seen retiring towards the sea on the ice in autumn, and appear again in great numbers in the latter end of March, bringing their young with them. Hearne also states that the white or arctic foxes are, some years, remarkably plentiful, and always come from the north; that their numbers almost exceed credibility; that it is well, known none of them ever migrate again to the northward; and that naturalists are at a loss to know where they originate, f He also mentions that all kinds of game, as well as fish, in those high latitudes, are at some seasons excessively plentiful, and at others extremely scarce. These facts strongly corroborate the doctrine of a hollow sphere; otherwise, why should the reindeer and other animals migrate north instead of south, as our buffalo on the plains of Missouri do when pressed with snow and cold weather? Instinct generally leads animals to fruitful and productive, rather than unproductive regions; why then proceed north on the approach of winter, unless in expectation of finding a warmer climate, or at least a more mild and plentiful country beyond the icy circle? Independent of the immense droves of reindeer,...
