Createspace, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Set in the era of the 1990s, this book portrays an existing secret world, hidden in our technological evolution. Outright evil people and colorful characters were around and were, largely, unrecognized. Follow their journey in a prior time and ask yourself, how much is true and how much is fiction? Such characters did and do exist. There had been a new form of clandestine warfare waged ever since the close of World War II. Industrial espionage had been well out of the public eye. Only in the 1990s has the extent of covert activity been creeping into the news. U.S .News and World Report, the Wall St. Journal and others have begun to report on this industrial espionage. . American corporations had been stealing each other s secrets and technology for decades. Their intellectual gamesmanship was not prepared for more primitive assault. As the world emerged from WW11, non-violent activity graduated, on the international front, into a more dangerous and invasive activity. With U.S. firms reacting to the outflow of technology, the Corporate Spy Wars (U.S. News and World Report February 1998) were well under way. International corporate spying has even given birth to new breeds of computer hackers. One group in St. Petersburg Russia made off with ten million dollars from Citibank in 1994, without firing a shot. The problems are so pervasive; the Congress passed the 1996 Economic Espionage Act empowering the FBI to assist in protection of the national interest. The FBI established its office called the Computer Investigations and Infrastructure Assessment Center which began a partnership between government and corporate America. All of these measures have been described as too little, too late. In...
