On the Way to the Information Society: 5 Years of European Acts Research on Intelligence in Services and Networks

By Magedanz, T; Mullery, A; Rao, S; Rodier, P.

IOS Press, Amsterdam, 2000. Cloth. Book Condition: New. In the 4th Framework of European research programme, telecommunications sector (ACTS) has played an important role. Within the framework under ACTS (Advanced Communications Technologies and Services), Domain 5 is dedicated to "Intelligence in Services and Networks (IS&N)" area and has projects that deal with service architecture, service platforms, service creation, communications management, electronic brokerage, mobility, security, agent technology and applications. Many of the projects cover more than one of these aspects. This text addresses the issues in particular order and provides the results of IS&N projects addressing those issues in a synthesized manner, so that the reader can get insights into the European projects contribution towards the telecommunications software industry. Thus it provides the reader with a comprehensive overview of IS&N issues. 579pp. Size: 8vo - over 7¾" - 9¾" tall.

Reviews

Basically no terms to clarify. It is actually written in basic terms rather than confusing. I found out this ebook from my dad and I suggested this book to find out.

-- **Elinore Vandervort**

If you need to add benefit, a must buy book. I could possibly comprehend every little thing out of this composed e pdf. I am quickly could get a enjoyment of looking at a composed book.
